2026-2028 GIA Planning Approach & Outcome

Planning Methodology

The 2026 Audit Plan has been derived from the Audit Universe encompassing products, channels, platforms, functions and processes on a risk-based approach across the Bank.

The proposed FY 2026 Annual Audit Plan includes **35 audits**, reflective of entities which have been prioritized based on:

- Risk-based approach reflecting periodicity, inherent risk, and control effectiveness.
- Board insights and discussions with Senior Management and key stakeholders across the 1st & 2nd lines of defense.
- Strategic initiatives related to Digitization and Transformation.
- Business significance, materiality, profitability contribution, and regulatory relevance.
- Lifecycle-driven coverage (3-year cycle), with 14 entities exceeding cycle, with planned coverage in FY2026 & 2027.
- Mandatory nature reviews (ICAAP, Pillar 3 Reviews, CRMS, EIBOR).
- Operative effectiveness of controls for inherently high- risk entities associated with new products, channels and acquisitions
- Subsidiary & Material Outsourcing Governance

Audit Universe Refresh Highlights

- Total auditable entities: **103** (2025: 105*).
- Driven by business transformation, expanded digital footprint, new regulatory-focus areas, and organisational restructuring.
- Additions include: **Emirates Interbank Offered Rate (EIBOR)**
- Removals: **Finance Systems & Controls, Outbound Calls & Machine Learning.**
- Residual Risk Rating Adjustments: **5 Entities Upgraded & 4 Entities Downgraded**

**Based on mid-year assessment of the Audit Universe*

Residual Risk Profile

7	84	12
High Risk	Medium Risk	Low Risk

High-risk areas:

- Information & Cyber Security
- Technology & Third Party Risk
- Conduct Risk
- KYC Remediation
- Financial Crime Risk
- Cloud Platforms
- Digital Assets

Classification: RAKBANK-Internal

Key Modifications to the Audit Universe

Entity Removal (3)

- Finance Systems & Controls (now covered within Financial Reporting & Controls)
- Outbound Calls (coverage within Voice & Chat)
- Machine Learning (coverage within Advanced Analytics & AI)

New Entity Added (1)

- Emirates Interbank Offered Rate (EIBOR) → (carve out from Asset and Liability Management)

Residual Risk Rating Adjustments

Upgraded (5)

- Information & Cyber Security (Medium → High)
- Conduct Risk (Medium → High)
- Technology & Third-Party Risk (Medium → High)
- Business Banking Products (Low → Medium)
- Digital Assets (Low → High)

Downgraded (4)

- Model Risk (High → Medium)
- Counterparty Risk (Medium → Low)
- Bancassurance (Medium → Low)
- IT Operations and Support (High → Medium)

Risk rating shifts reflect control maturity improvements, CBUAE remediation closures, and changes in risk materiality.

Classification: RAKBANK-Internal

Capacity and Delivery Outlook

Capacity Assessment

Audit Demand (2026–2028)

5%
Deficit Remains Within Tolerance

Manpower Capacity Planning Summary

	2026	2027	2028
Audits Planned	**35**	**40**	**40**
Summary of Man-days			
Total Available Audit Pool Man-days	4,400	4,400	4,400
Less 10% Contingency	4,060	4,060	4,060
Audit Demand Budget*	**4,190**	**4,170**	**4,140**
Budget Deficit Mandays	**-130**	**-110**	**-80**

*Includes Planned Audit & Reviews, CBUAE Validation, Follow-Up, Advisory & Ad-hoc activities.

Drivers of Demand

- Expansion of the audit universe, including new high-risk & emerging areas
- Increased UAECB (regulatory) expectations for validations, risk oversight and follow-up.
- Focus on critical areas such as Cybersecurity, AML/CFT compliance, and Data Analytics.
- Inclusion of auditable entities that have not been covered within the audit cycle and warrant coverage

Embedding FY 2025 Strategic Initiatives into GIA's Delivery Model

- Data-led audits through **Data Driven Audit Insights**, using dashboards and continuous-monitoring enhancing coverage and reduction of manual testing.
- **Guest Auditor Program** for specialized domains, leveraging expertise to uplift capability in complex risk areas.
- Enhanced alignment in scheduling and coverage by 2nd line of defense, anchored in the **2nd Line Alignment** initiative, optimizing assurance sequencing and resource deployment.
- Clearer and faster reporting cycle, underpinned by the **Two-Tier Audit Rating Framework**, strengthening prioritization and governance visibility.
- Integrated audits using Copilot-assisted workflows across audit cycle as part of GIA's **AI initiative** to enhance efficiency.

GIA can deliver the plan for all three years with targeted efficiency gains and a risk-based deployment strategy.

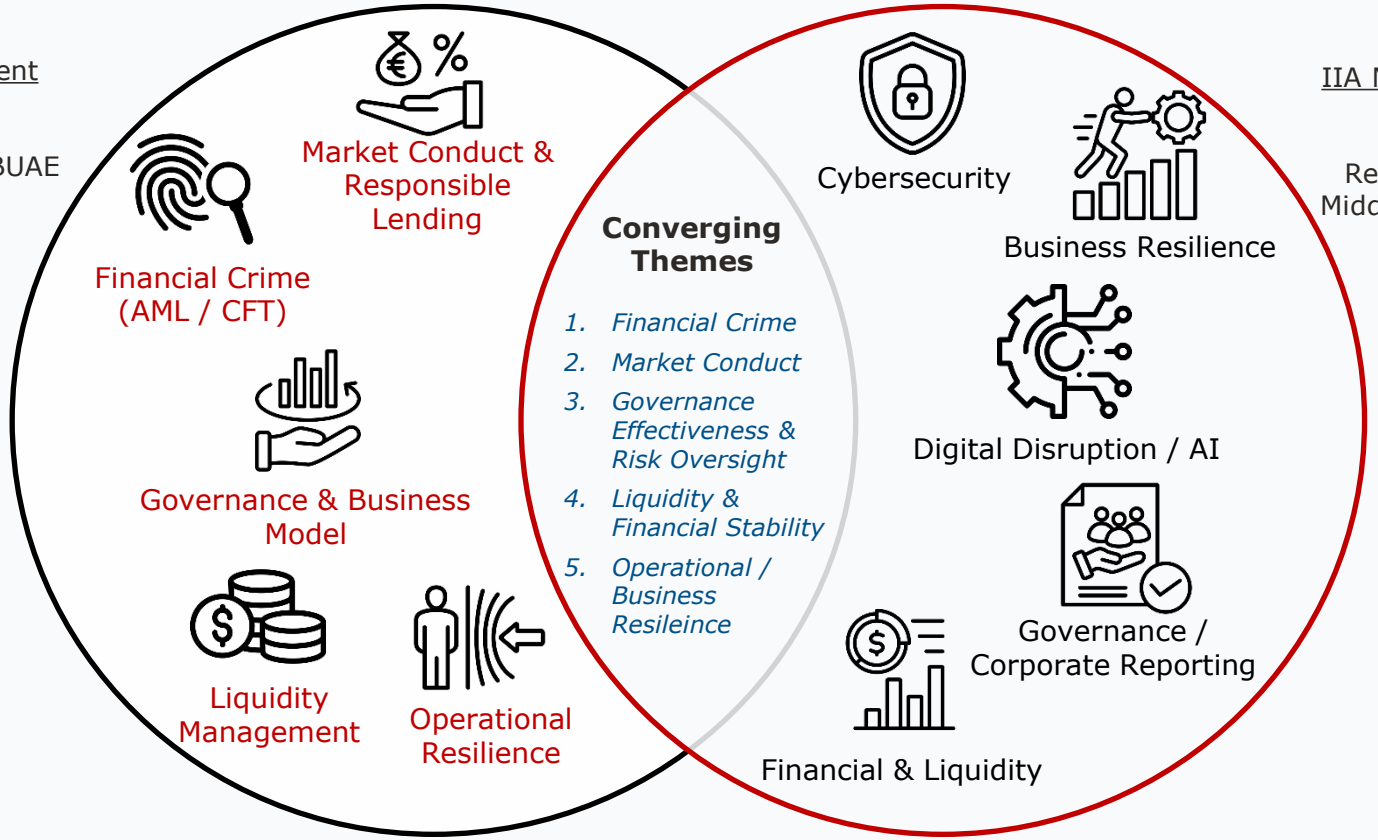
Classification: RAKBANK-Internal

External Risk Drivers Shaping the FY 2026 Annual Audit Plan

Our 2026 coverage is anchored in the convergence between CBUAE supervisory priorities and IIA Middle East risk themes. This ensures our planned audits directly reflect regulatory expectations, observed risk trends, and the Bank's evolving risk profile.

CB UAE Supervisory Assessment

Supervisory risk drivers highlighted through recent CBUAE examinations and prudential assessments.



IIA Middle East "Risk in Focus 2026" Key Themes

Regional emerging risks based on IIA Middle East's 2026 industry-wide survey.

Key Insights	
	• A significant portion of supervisory areas of focus cluster within the region's top-five risk domains • Cybersecurity remained the region's top risk, while digital disruption risk (including AI) showed the sharpest increase compared to the previous year. • 2026 audit coverage recalibrated to align with CBUAE drivers and emerging risks.

Classification: RAKBANK-Internal

Key Thematic Learnings from FY 2025

Learnings from FY 2025 This slide summarises the key enhancements and recurring themes identified through the FY2025 audit cycle, forming the insight base that informed prioritisation and coverage decisions for the FY2026–2028 Audit Plan.

Enhancements Observed

- **Incident Reporting -** Reclassification of incidents based on customer and transaction impact to enhance overall customer experience.
- **Process Automation -** Enhanced workflows and more process automation observed across the 1&2LOD activities.
- **Governance Documentation -** Improved completeness and accuracy of Terms of Reference, agendas, and committee packs. Quality of policy & procedures and timelines of their updates enhanced
- **Regulatory Reporting** - Stronger data validation, clearer ownership.
  Enhanced reconciliation and controls for key regulatory returns.
- **KYC Remediation (FI & WBG)** - Reduced backlogs and better evidence of due-diligence completion and exception handling.

Recurring Themes

- **Data Quality and Governance -** Data consistency & completeness issues identified, affecting reliability. Data platform and Informatica tools are being implemented to ensure data lineage & enforce quality controls.
- **Outsourcing Governance -** Control weakness over monitoring & oversight on outsourced agencies.
- **Cyber Resilience -** Gaps in configuration, vulnerability & privilege access management protocols requiring immediate remediation.
- **Regulatory & Conduct Risk** – Gaps identified in Financial Crime Compliance & application of Consumer Protection Regulations; including Large Exposures & Regulatory Reporting.
- **Delegation of Authority** - Gaps in governance, compliance, and operational execution.

Forward Linkage

- Themes embedded into FY2026-2028 planning cycle
- Reinforcing prioritization of high-risk areas
- Strengthening governance and risk awareness
- Guiding recalibration of audit coverage
- Enhancing lifecycle oversight across the Audit Universe

Linkage to the FY 2026-2028 Audit Plan

How Inputs Translated into the Audit Plan

- High-risk areas prioritised: Information & Cyber Security, Financial Crime Compliance, Cloud Platforms, Conduct Compliance, KYC Remediation, Technology and 3rd Party Risk.
- Regulatory-mandated reviews: including mandatory annual reviews (ICAAP, Pillar 3 Reviews, Annual CRMS, EIBOR, ADHICS, Stress Testing and Shared Services & Strategic Outsourcing).
- Lifecycle Coverage: Deviations (14 entities) addressed across FY 2026–2028 Audit Plans.
- New entities integrated: (Advanced Analytics & Artificial Intelligence, Digital Assets, Cross-Border Risk, & RAKAZA).
- Material Outsourcing Coverage: Outsourced relationships and vendor Governance reflected through 2026/27/28 coverage.

Assurance Commitments

- Comprehensive coverage of the 103-entity Audit Universe, incorporating all updates and risk recalibrations.
- Direct alignment with CBUAE supervisory themes, mandatory reviews and regulatory cycles.
- Prioritised assurance over high-exposure domains: cyber, technology, model risk, FCC and Conduct Risk.
- Structured oversight across digital transformation, cloud resilience and AI-driven processes.
- Reinforced governance of outsourcing, subsidiaries and ecosystem partners.
- Multi-year coverage discipline, with annual recalibration under the Global Internal Audit Standards..

Forward View

- Full 3-year coverage preserved.
- Plans will be recalibrated annually as required by Global Internal Audit Standards .
- Strategic initiatives positioned alongside ongoing risk priorities.
- Flexibility retained for regulatory triggers and business developments.

The following pages present the updated Audit Universe, followed by the detailed 2026 plan for approval and the 2027–2028 plans for the Committee's information.

Proposed Audit Plan 2026

Group Internal Audit Department

11th December, 2025

35
Total Audits

23
Risk-Based Audits

12
Regulatory Mandated Audits

Classification: RAKBANK-Internal

Audit Plan Overview & Distribution

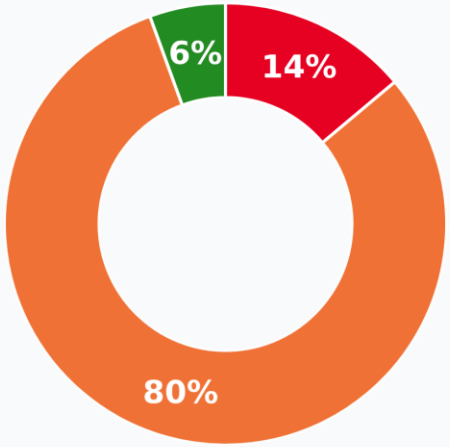
The 2026 Draft Audit Plan comprises a total of **35 audits**, strategically categorized to ensure comprehensive coverage of both risk-based and mandatory requirements.

Audit Type Distribution

- Risk-Based: 23 audits
- Mandatory: 12 audits

Total: 35 audits

Risk Distribution



- High Risk: 5 audits (14%)
- Medium Risk: 28 audits (80%)
- Low Risk: 2 audits (6%)

FY2026 Audit Plan covers 100% of high-risk entities, approximately 51% of medium-risk entities and 33% of low-risk entities ensuring a balanced focus on risk-based priorities and regulatory requirements.

Risk-Based Focus
23 audits based on risk assessment

Regulatory Mandated Reviews
12 mandatory regulatory audits

Strategic Integration
7 Integrated Audits with a holistic approach

Classification: RAKBANK-Internal

Risk-Based & End of Cycle Audits

The FY 2026 Audit Plan includes **23 risk-based audits** scheduled based on end-of-cycle and risk assessment of auditable entities.

Data Quality & Governance

Evaluating data management practices.

Digital Assets (I)

Reviewing digital asset strategies and controls.

Cyber Security Operations

Assessing information and cyber security operations.

Integrated Audits

The plan emphasizes on Integrated audits embedding IT reviews into business audits, ensuring technology, cyber security, and system risks are assessed alongside process risks

- Protego (I)
- ATM Infrastructure (I)
- Fraud Risk (I)
- Wipro Outsourced (I)
- Financial Crime Compliance (I)*
- Pre-implementation - NAWAT (I)

*Regulatory Mandated Audit

Risk/Periodicity Based Audits

Personal Loans	Legal	Network Architecture & Resilience	Card Operations	Transaction Banking
Outbound Calls	Regulatory Reporting BRFs	Branches	Shared Service Ops	Credit Governance & Provisions
Conduct Compliance	Financial Planning & Budgeting	Procurement & Vendor Management Office	Financial Institutions	Commercial Banking and FIGP

Classification: RAKBANK-Internal

Regulatory Mandated Audits

The FY 2026 Audit Plan includes **12 mandatory regulatory audits and reviews** to ensure compliance with regulations issued by Central Bank of the United Arab Emirates and internal governance frameworks.

Annual CRMS Compliance

Annual review of compliance with Central Risk Management System requirements

EIBOR

Review of Emirates Interbank Offered Rate submissions and compliance

Recovery Plan

Assessment of recovery strategies and plans

Pillar 3 x 4 Reviews

Four reviews of disclosure requirements

Capital Management

Capital Adequacy Ratio + ICAAP Reviews

Regulatory Stress Testing

Assessment of stress testing methodologies

Financial Crime Compliance

Integrated audit (I)

ADHICS Compliance

Review adherence to ADHICS requirements

Shared Services /Outsourcing

Review of Strategic Outsourcing

Classification: RAKBANK-Internal

Looking Ahead: Strategic Priorities

Our Vision for FY2026 and Beyond

Group Internal Audit is evolving from a traditional assurance function into a forward-looking strategic partner that combines risk focus with predictive analytics and business acumen. Our transformation journey is accelerating as we embrace technology, build new capabilities, and deepen our stakeholder relationships.

We will continue to strengthen our core assurance mission while expanding our contribution as trusted advisors on emerging risks, strategic initiatives, and organizational resilience. Our commitment to quality, independence, and professional excellence remains unwavering as we navigate this evolution.

Forward Looking Audit Practice

Leverage analytics and continuous monitoring to identify risks before they materialize

Strategic Partnership

Deepen collaboration with business and risk functions as integrated assurance partners

Technology-Enabled Delivery ~~Excellence~~

Scale AI and automation capabilities to enhance audit quality and efficiency

Talent & Capability

Invest in our people through continuous learning and cross-functional experiences
